

APPLICATION DATA SHEET

ENVIROGRAF®

AP063-04-2015

Product Number: 63 Intumescent Cement Filler

Description:

A buff or pink coloured ready-mixed intumescent cement filler that sets hard, like normal cement, but it does not crack. In a fire, it will expand to five times its original volume. Ideal for applying around pipes, services, and behind door frames, especially steel door frames. It is also used as a facing top coat over Envirograf® Product 44 (PVE/A foam). Can also be used to fill cracks in ceilings and walls before Envirograf® Product 84 (S/Paper) is applied

Application:

Envirograf® Intumescent Cement Filler can be applied directly into holes and gaps using the 310ml tube then a trowel or spatula can be used to smooth surface. Alternatively it can be applied using trowel or spatula. When dry, it becomes hard like cement and can be painted over.
Tools can be cleaned in warm water.

Storage:

12 months in unopened original packaging.
Store between +5°C to +30°C.
Protect from frost.
